Chapter One: Sitting With Discomfort

When an urge arrives, it feels permanent. It is not. Every urge rises, peaks, and falls away if you do not feed it. The skill is not fighting the feeling; it is letting the feeling be there while you choose what to do next.

Small habits compound. A single repetition looks like nothing, but a hundred repetitions change who you believe you are.

Chapter Two: Why It Matters

Write down the reason you started. On the hard days the reason is what carries you, not the motivation you felt at the beginning.
